

## Interações Inseto-Planta

Código: BIG 819  
 Créditos: 04  
 Carga Horária: 60  
 Departamento de Biologia Geral

### Ementa

Visa o estudo das relações evolutivas entre insetos e plantas abordando aspectos da evolução das relações tróficas, teorias sobre interações planta-herbívoro, defesa de plantas contra herbívoros, dinâmica e interações entre níveis tróficos, biogeografia, biodiversidade, e uso de insetos em estudos de conservação.
